

How to use MozzieMesh®

1. Open the plastic covers and take the cards out – Do NOT touch blue mesh.
2. Write the date on the cards.
3. Use one card in each of the most commonly used rooms.
4. Hang or place the cards out of reach of children, near the middle of the room. Gentle air flow works best to spread the vapour.
5. Wash your hands.
6. After 4 weeks, discard and replace cards or use another method to kill mosquitoes in your home.

MozzieMesh safety

- MozzieMesh cards release a much smaller amount of insecticide than other products to protect your home.
- They are **safe** for all family members and pets if directions on packaging are followed.
- Avoid touching or sniffing the mesh. Wash with soap after any contact.
- If swallowed call Poisons Information Centre on 131126
